

What you told us

Your kitchen toaster must:

- Be easy for your kitchen staff to use.
- Toast each order as the customer wants it.
- Not slow down productivity while doing it.

IMAGE

But...

Other slices next to special orders are affected.

This is slowing your kitchen production, leading to frustration.

IMAGE

Our toaster solves this problem

Advantage Kitchenware Toaster

- Toasts up to 500 slices per hour.
- Is quick to set for every special order.
- Toasts each order without affecting the slices next to it.

IMAGE

This means...

- No more slowing down toast production for special orders.
- No more unwanted bread waste.
- Orders get to the tables faster.

IMAGE

Problem solved

Now your kitchen productivity improves.

This brings you more in revenue while reducing bread waste to almost zero.

IMAGE

Your competitive advantage

Your customer satisfaction increases, and you gain new customers when they tell their friends.
